

## **For Tutors**

You are probably already working in a school, but looking to supplement your income. On the other hand, you may be looking for a career change. Whatever your situation, if you are an experienced teacher - or tutor - with a subject-specialism in English or Maths, we would like to hear from you.

Simplified Education has learning centres in Croydon and Clapham, so we are looking for candidates who live near - or are happy to travel to - these areas. In the case of our Home Tutoring service, you may be asked to travel further afield, as we try to be geographically flexible.
